

A practical documentation resource for the people who support care operators.

Provident Care Co. gives small assisted living and in-home care operators an immediate next step when the documentation is incomplete, inconsistent, or simply not keeping up with the operation. Our work is grounded in active care operations and is intentionally scoped: operational documentation support, not legal, medical, clinical, or licensing advice.

WHAT YOUR CLIENT CAN USE	Editable documentation systems Care plans, admissions, incident response, daily documentation, medication support, and staff competency files - available individually or as a coordinated bundle.
A FOCUSED FIRST STEP	\$295 Documentation Check Review of up to five existing forms, policies, or record samples. The operator receives a written, prioritized findings memo and practical next steps.
WHEN THE PROBLEM IS SYSTEMIC	\$1,250 Documentation & Compliance Sprint Up to 20 documents reviewed, a prioritized gap memo, a customized working pack, implementation roadmap, and focused working session.

A SIMPLE HANDOFF

1. Share the free Documentation Readiness Checklist or introduce the operator to Provident.
2. We confirm the right level of support and the exact scope before payment or document transfer.
3. The operator receives a defined, bounded deliverable. You remain the expert in your own lane.

WHY THIS HELPS YOUR CLIENT

The goal is not to replace their legal, clinical, licensing, insurance, accounting, or consulting support. It is to give them clearer working records and a more organized starting point for the work that follows.

PARTNER WITH PROVIDENT CARE CO. | providentcareco.com/partners | support@providentcareco.com

Provident Care Co. is a Templar's Hearth LLC company. Operational resources only; not legal, medical, regulatory, or licensing advice. Operators must verify current state requirements.
